PART I.

MADRAS:
PRINTED FOR THE MADRAS EXHIBITION OF 1859,
AT THE SCOTTISH PRESS, BY GRAVES AND CO.
1859.

July 1909

2015-3

P R E F A C E .

THE propriety of quoting the vernacular names of plants, has been questioned by several Indian Botanists and by none in more condemnatory terms than by Dr. Wight.* The objections urged, are the uncertainty and fluctuating character of local terms, the mistakes made by persons ignorant of the language of the country in assuming the answers of Natives to be names which were no names, the number of diverse names given to the same plant, the mischief which might be occasioned by such misapprehensions, &c. But it cannot be denied that many of the commonest and most useful plants are known by definite and

* *Prodr.* pref. p. xxiii. After stating that he discards all native names in concurrence with the opinions expressed by Wallich and Carey in their edition of the *Flora Indica*, he adds that "the natives seem to have no rule either for nomenclature or orthography; they have no means of producing an uniformity of names, and very frequently confound one name with another, so that our inserting these would only tend to mislead, in place of proving an aid in the investigation of an unknown plant, by one unacquainted with botany. Owing to very different plants having the same native name, we have occasionally known dangerous mistakes originated, by erroneously substituting active medicines, when those of an opposite kind were intended, and vice versâ. On these last grounds particularly, we not only think it useless but injurious, nay even dangerous, to insert those names, unless the natives themselves shall have discovered some method by which a plant shall be known throughout by but one name, and that name shall be restricted to the individual plant."

But Wallich simply states that the names given to plants by natives of Nipal are in general very uncertain and fluctuating and that he only uses them when he has reason to be tolerably satisfied as to their correctness, and accordingly he does insert

generally received appellations, an acquaintance with which must often prove useful to persons ignorant of botany and even to those commencing the study of that fascinating science, at a distance from books of reference and other assistance.

It must be borne in mind that many plants are spread over the whole of the Peninsula and are common to provinces where the dialects in use differ as much from each other as do French and Spanish and Portuguese and Italian. It cannot be matter of surprise therefore to find a different, though perhaps a cognate name, attached to the same object in each. Even within the range of one dialect, the same name will be pronounced differently by the educated and the ignorant, and this, owing to the greater diversity of races in India, occurs to a greater degree here, than is found in more civilized countries. Such differences of pronunciation and of local use, exist to a very considerable extent even in our own country, between the people of different counties and still more between those of England and Scotland, Wales and Ireland. But this is no reason why such words should be neglected. If their identification secured no other purpose, it would at least prove useful to the philologist. Few of the names now brought together, exist in the best dictionaries at all, and many of those that do find place in them, are erroneously explained.

On this ground alone, the formation of such lists as that now submitted, is deserving of encouragement.

To the merchant, to the officers of the Department of Public Works and the Railway, to European settlers engaged in agriculture or trade and to the traveller whose time is limited,* the aid afforded by such a manual cannot be slight.

several. In like manner, Carey attributes the occurrence of the mistakes so often found in the vernacular names assigned to plants, to the fact of their having been taken down from the mouths of natives, by persons more or less ignorant of the language or dialect spoken. But neither does he propose to discard them altogether, rather he agrees with Wallich that they should be added whenever there is reason to believe them to be correct.—*Flor. Ind. Ed. Carey. II. 99, 415, notes.*

* "And in this founde wee oftymes muche trouble and vexation, with moreover losses, bothe of precious tyme and lucre. *Fyrste*, thatt wee coulede never aske in $\frac{c}{v}$ Indian tongues for suche herbes, or fruites, woodes, barkes, or gummes, as wee

But even as regards scientific purposes, other botanists are found to view the subject in a very different light from Dr. Wight.

Dr. Royle, in his observations on the Provincial Exhibitions of the Madras Presidency, expressly recommends that native names should be introduced into the proposed botanical Manual, for Southern India.*

"I have always found," he observes, "that such (plants) as are of use and are therefore important, have names by which they are well known to the Natives. These names no doubt differ in different districts and applying them may be more troublesome in the Madras Presidency than elsewhere, from the languages differing so much in different parts, but this very fact makes the task more necessary."

The opinion of William Griffith, eminent among the many eminent botanists of India, also deserves to be cited. In a letter to Mr. Marshman written shortly before his death, he enumerates the merits of Voigt's catalogue, among which he particularizes that "it gives in all definable cases, the vernacular names, and these appear to have been obtained with no common care and consequently to lose in a great measure, the usual inapplicability."

One great source of confusion is found in the absence of a recognised standard for representing native sounds in an English dress. The same word is spelt in as many forms as there are writers, each according to his individual conception of the sound uttered by the speaker, so that the recorded results can hardly be recognised as applying to the same thing.

The persons moreover from whom such information is derived,

knewe full well, by experience in sundrye other partes, to bee wholesomme, (many of our crewe lyinge sicke at this tyme,) or savorye, or usefulle to trafficke withall. *Nexte*, thatt when anye were shewne us, we coulede in noewise tell, from $\frac{a}{y}$ names given toe them by $\frac{a}{y}$ *Gentooes*, whether or noe $\frac{a}{y}$ like were already knowne in *European* countryes: And yett these partes doe myghtylie abounde with herbes and woodes of sovraigne virtew."—*Master Richarde Kynges, his travells, and voyages, and traffickes, in foraygne countryes, in the Shippe Tamburlan. Lond. MSS. fol. 1634.—Title to Pid. Ind.*

* In conformity with Dr. Royle's advice such a manual has already been undertaken and is now in course of preparation by Mr. Cleghorn, the late Professor of botany.—*Mad. Jour. Lit. and Sc. V. II. N. 5. p. 78.*

are frequently ignorant illiterate men, whose faulty enunciation of a name produces a sound very different from that of the same word correctly spoken. This is particularly the case with the wild races inhabiting jungle and forest tracts, such as the *Yādādis* of Nellore, the *Chenchus* of Guntoor, the *Kōyas* of Rajahmundry and the *Konda Dorālu* of Vizagapatam. These classes possess a very extensive and accurate knowledge of the vegetable products of their several ranges and are generally able to apply a name to every plant or tree, in any wise remarkable. But as a matter of course, their pronunciation is rude and barbarous and frequently much corrupted. The particular term employed by one tribe, is likewise often peculiar to themselves and differs from that in use among the others. Still wherever such a name is found to prevail throughout a particular tract, a knowledge of it will prove useful.

In preparing the list which serves as the foundation of the present catalogue, the vernacular names were always written down in the native character, from the mouths of the speakers, by a native of the district. These have been tested by a reference to the best native dictionaries and corrected where possible. The same process has been applied to Roxburgh's and other names introduced. But many are without doubt still faulty, several may probably be found to be insufficiently established and many more remain to be added. On several occasions, names were given to unknown plants, the botanical position of which was never ascertained and consequently this want remains still to be supplied. The list admits of being greatly enlarged, for neither leisure nor opportunity have been sufficiently at command, to allow of a systematic collection being made.

It is hoped however that by the plan now followed, a beginning has been made for the preparation of a more accurate catalogue, on correct principles, and as such, it is offered to those who are interested in the scientific or economical study of vegetable productions.

The catalogue consists of two parts :—

I. A list of Telugu names.

II. A list of Sanscrit names with their Telugu equivalents.

The sources from which the names in Part I, have been derived are:—

- 1st. A list made during a residence of five years in the Northern Circars.
- 2d. A list prepared by Lieut. Beddome, Assistant Conservator of Forests, principally in the upper valley of the Godavery.
- 3d. Names found in Roxburgh's *Flora Indica* and *Coromandel Plants*.
- 4th. Names occurring in Heyne's *Tracts on India*.
- 5th. Names found in Piddington's *Index of the Plants of India*.*
- 6th. Names met with in Ainslie's *Materia Medica*.

Part II. has been drawn entirely from a native work in *M.S.* called the *Sabdārtha-kalpataru*, a Sanscrit and Telugu Dictionary compiled by Māmidī Venkayya, a learned Komati of Masulipatam, in the early part of the present century. It consists of three large folio volumes and was found in the possession of the author's grandson, the late Māmidī Nāga-bhūshanam, who kindly permitted me to consult it during my residence at Masulipatam in 1851.

The following letters prefixed to a name indicate the authority on which it is inserted:—

B—Mr. Beddome's List.

R—Roxburgh's *Flora Indica* and *Coromandel Plants*.

P—Piddington's *Index*.

H—Heyne's *Tracts*.

S. K.—The *Sabdārtha-kalpataru*.

Br.—Brown's *Dictionary*.

The letter S. following a word intimates that it is of Sanscrit origin.

Those without prefix, are from my own list and when it includes names also occurring in other works, the absence of the letter indicates that they have been noted independently of such authorities.

* The number of Telugu names in Piddington's list is 928, of which 445 are taken from the *Flora Indica* leaving 343 derived from other sources, but many both of the former and of the latter are wholly unrecognisable.

The first column contains the name in the vernacular character—the second its equivalent in Roman letters according to Sir W. Jones' principles as modified by Wilson and the latest authorities—the third gives the botanical names, and the fourth is devoted to miscellaneous remarks.

The botanical nomenclature has been chiefly, though not altogether based on Voigt's *Hortus Suburbanus Calcuttensis*, with the addition of references to the most accessible local authorities, indicated by the following abbreviations:—

R.—Roxburgh's *Flora Indica*, 3 vols. 8vo. Serampore, 1832; with the *volumes* in Roman and *page* in Arabic numbers.

R. Cor.—Roxburgh's *Coromandel Plants*, London. 1795-98-1819; with the *number* of the plate only.

W. & A.—Wight and Arnott's *Prodromus Floræ Peninsulæ Indiæ orientalis*—London. 1834; the reference being invariably to the *number* of the species.

W. Ill.—Wight's *Illustrations of Indian Botany*, 2 vols. 4to. Madras 1840-50; the reference being, unless otherwise specified, to the *No.* of the plate.

W. Ic.—Wight's *Icones Plantarum Indiæ orientalis*, 6 vols. 4to. Madras. 1840-1853. The reference is always to the *No.* of the Plate.

W. Contr.—Wight's *Contributions to the Botany of India*—London 1834; the reference is to the *page*.

Heyne.—Heyne's *Tracts on India*, 4to. London, 1814—the reference being to the *page*.

O'Sh.—O'Shaughnessy's *Bengal Dispensary*, Calcutta. 1844; the reference is to the *page*.

Ains.—Ainslie's *Materia Medica of Hindustan*, 4to. Madras. 1813—the reference is to the *page*.

Rheede.—The *Hortus Malabaricus*—the reference being to the *part* or *vol.* in Roman and to the *plate* in Arabic numerals.

Br.—Occasional references, will be found to Mr. C. P. Brown's Telugu and English Dictionary, Madras 1852, with a direction to the *page* at which the word quoted, occurs : and

W. to Profr. Wilson's Sanscrit Dictionary, 2nd edition, 4to. London. especially in Part II, where in like manner the figures noted are intended to indicate the *page* on which the word is found.

SK అల్లపుకొమ్మ వేర వంటి గడ్డి

The leaves are used as a spice and medicinally.
W. 17.—Br. 44.

Name given by the Konda Dorla.

Ditto.

Br. 45* gives *Nymphaea* as the signification
of this term but it is a Tamil use of the word
only employed by Teluges near Madras.

With large edible fruit.

The Sans. syn. is *Grach-cha*, which signifies "tufts."
a peculiarity of *A. Iwarancusa*, R. i. 275.

బాలబండిగి- (చెవులపిల్లి)	Bālabāndi tige (<i>Cherulapilli tige</i>),	...	IPOMŒA PESCAPRÆ, Sweet.—Convolvulus perscap. R. i. 486 ; C. bilobatus, R. i. 485.— <i>Rheedē</i> , xi. 57.	W. 742, has <i>Talbagia</i> which he makes <i>Elen-sine Indica</i> , Gaertn.—Br. 568.
S K బల్బజము-(మొదవగడ్డి.)	Balbajamu S (<i>V. Modava gaddi</i>),	...	IMPERATA CYLINDRICA, <i>Bauw.</i>	A doubtful name.
R బలికొమ్మ- (నల్లఉడత-తెలుదాదా.)	Bali komma (<i>V. Nalla udala & Telēda</i>),	...	OPILIA AMENTACEA, R. ii. 87.—W. III. 40.	Commonly called the American aloë. The same name is also applied to <i>Agave mexicana</i> (<i>V. Bromia dandi</i>) and at Simlachalam the Konda Dorulu gave it to <i>Paratropia venulosa</i> . In Piddington's index, it is said to be <i>Arum</i> (<i>Colocasia</i>) <i>formicatum</i> R. iii. 501.—W. Lc. 789-92.—
బలురక్కి-న. [ల ఉడత]	Balu rakkisa,	...	FOURCROYA CANTALA, <i>Haw.</i> —Agave Cant. R. ii. 167.	Br. likewise, 567, makes it an <i>Arum</i> (<i>Colocasia</i>) <i>macrorhizon</i> ? But his description seems to refer partly to the common aloë.

Fourcroya Cantala or perhaps to its con-
 gener *Fourcroya tuberosa*, confounded
 with *Celastrus Indica* and *Remusatia viv-
 para*, R. iii. 486, 488, all of which are
 propagated by tubers hanging from the
 stalk—and partly to *Spinifex squarrosa*
 (V. *Ramanásurumi mēdē*), the prickly
 spherical involucre of which are rolled
 and whirled over the sands of the sea-
 shore by the wind, all along the Coroman-
 del coast.—Ps. lxxxiii. 13.
 The word *kīra* signifies "vegetable." The
 use of the plant occurs in a verse of the
 Bhārata where Krishna having been fed
 by a hunter or savage, his attendant asks :
 హాలోదహాప్రావశాకసూపంబులాహం
 చాలికుండడుXబలుసుకూర||
 Is the *Balusu kīra* which you received from
 Pāñchālikudu equal to *śālyōdanum* (fine
 rice) *apīpa* (cakes); *sāka* (vegetables),
śūyam (pulse) ?
 It is a common proverb also—పాణం
 ఛంబెబలుసు ఆకలిని బ్రతకవచ్చును.
 Whilst life remains, I can, subsist on the
 leaves (*kīra*) of the *Balusu* :—implying sub-
 mission to any necessity however grievous.
 Br. 523.

The name occurs in Br. 521 with the expla-
 nation "a hard yellow wood like mango
 wood." I heard the preceding name (with a
 soft *d*) frequently applied to *Nauclea cor-
 difolia* in the Rajahmundry Hills and from
 its resemblance to its congener *Hyme-
 nodiction excelsum*, the two may have
 been confounded under the same name.

TELUGU NAME.		BOTANICAL NAME.	REMARKS.
Vernacular Character.	Roman Character.		
బొబ్బిల్లు - (అలచందలు).	Bobbarlu (<i>V. Alachandalu</i>).	...	This name is explained by Br. 633, to be "the whispering larch tree"; such a definition may apply to the <i>Casuarina</i> , but we have never heard the name.
Br. బొబ్బిలి చెట్టు.	Bobbili chettu,	
R బోడచంద్ర - (ఉండ్ర - వెంట).	Bóda chandra (<i>V. Undra and Ven- tra</i>). ...	MIMOSA RUBICAUUS, Lam.	This name was given by the Konda Dorala and means the small or bare <i>Chandra</i> (<i>Acacia Sundra</i>)
బోడచూమిడి - (బ్రహ్మ మేడి).	Bóda māmidi (<i>V. Bravula médi</i>). ...	FICUS OPPOSITIFOLIA, R.	
బోదంకి చెట్టు.	Bódanki chettu, ...	BALSAMODENDRON AGALLOCHA, B. Roxburghii <i>Arn.</i> — <i>W.</i> Ill. i. p. 185.— <i>Amyris</i> Commiphora, R. ii. 244.	This word is found in R. iii. 561, but seems very like a mistake for <i>Bramha médi</i> , the true name. The Konda Dorala at Simhá-chalam however called it <i>Bodda chettu</i>
బోదంట చెట్టు.	Bódanta chettu,	This shrub was found on the rocky hills in the valley of the Krishna opposite Bez-wada with the Telugu name in col. 1. The botanical name is taken from Voigt, who refers to the note in W. and A. at page 96 of the prodr. and to E. Hort. Bengh. p. 28. This name was found about Pálakonda in Vi-zagapatam
S K బోదారశర్మంగి చెట్టు.	Bódára sringi chettu,	BALTHIA PURPUREA, L.—R. ii. 320.— <i>W</i> and A. 915.— <i>Rheede</i> , i. 33.	
బోడనరం.	Bódasaram, ...	1 STEMODIA VISCOSA, R. iii. 94; Cor. 163.— <i>W</i> Lc. 1408. 2 SPHERANTHUS HIRTUS.	Among the Sam. syns. only one <i>Kedarak</i> (not <i>Kédara</i> as written in S. K.) is found in W. 247, "the name of a plant."
S K బోడతరపు చెట్టు.	Bódatarapu chettu, ...	SPHERANTHUS HIRTUS, <i>Willd</i> — <i>W.</i> contr. 11; Lc. 1094.— <i>S. mollis</i> , R. iii. 446.— <i>Rheede</i> , x. 43.	V. next word. R. distinguishes between <i>S. mollis</i> and <i>S. Indicus</i> as being one with, the other without scent—but Voigt unites them. In Voigt, they have distinct Bengali names.
బోడచెట్టు - (మేడిచెట్టు).	Bódga chettu (<i>V. Médi chettu</i>). ...	FICUS GLOMERATA, R. iii. 558.— <i>F. racemosa</i> , <i>Willd</i> .	This name, (as well as <i>atli</i> and <i>medi</i>), is applied indiscriminately to various kinds of <i>Ficus</i> but most frequently to <i>F. glomerata</i> .

బొద్దుమూడి - (మురుమా బొద్దుమూడి. [మడి.]	Bodda mamili (<i>V. Mura mamili</i>), ... Boddi chettu, ...	CUPANIA CAERULEA, <i>Pers.</i> —Molucca can. <i>Z.</i> <i>R.</i> 348; <i>Cor.</i> 60.— <i>W. and A.</i> 386. MACRANGA ROXBURGHII, <i>Z.</i> <i>W.</i> in <i>Lc.</i> 1838. —Oxyris peltata, <i>Z.</i> iii. 755.— <i>W. Lc.</i> 817.	These names are somewhat doubtful. Br. inserts this name but does not state on what authority. It is also found in Piddington's Index.
బొద్దికూర. బొద్దికూర.	Boddi kura, ... Boddi kura, ...	EVEA HYPOCISTRIFORMIS, <i>Ch.</i> —Lettsonia uniflora, <i>Z.</i> i. 495.	The leaves are used as a vegetable in the south, as are those of <i>E. Foma-nor</i> in Bengal, Voigt. The Sans. syns. in Pt. II. <i>Atēga</i> , <i>W.</i> 123 and <i>Jwaga</i> , 353, are said to be <i>Argyrea argentea</i> , Ch. The buds of <i>Calonyction</i> and some sp. of <i>Ipomoea</i> , especially <i>I. reptans</i> , are also eaten as vegetables (<i>kūre</i>).
బొద్దుకూర. బొద్దుకూర. [విలికూర.]	Bodda kura, ... Boddu malle, ... Boddu pavili kura, (<i>V. Ganga pavili kura</i>), ... Boddu tanga, ...	PORTULACA TUBEROSA, <i>Z.</i> ii. 464. JASMINUM SAMBAC, <i>Ait.</i> var. plenum.— <i>Z.</i> i. Br. 677. 88.— <i>Rheede</i> , vi. 50-51. PORTULACA OLERACEA, <i>L.</i> — <i>Z.</i> ii. 463. HYMENOCHEITE GROSSA, <i>Nees</i> — <i>W. contr.</i> 110. — <i>Scirpus</i> gtos. & maximus, <i>Z.</i> i. 231. INGA XYLOCARPA, <i>DC.</i>	
బొద్దుకూర. బొద్దుకూర. [చంకెడుకూర.]	Bodda kura, ... Bokkadi, ... Bokkena, ... Bokkudu, ...	EHRETIA, sp. ZAPANIA NODIFLORA, <i>Lam.</i> —Lippia nod. <i>Rich.</i> — <i>Rheede</i> , x. 47. HYDROCOTYLE ASIATICA, <i>R.</i> ii. 88.— <i>Rheede</i> , x. 46.	
బొద్దుకూర. బొద్దుకూర. [జెముడు. జొంతు జెముడు - (బొంతు	Boddi kura, ... Bomma jemuḍu (<i>V. Bonia clematida</i>)	EUPHORBIA ANTIQUORUM, <i>L.</i> — <i>Z.</i> ii. 468.— <i>W. Lc.</i> 897.1863.— <i>Rheede</i> , ii. 42.	Only one of the Sans. syns. <i>Karṇap'kēla</i> occurs in <i>W.</i> 196, with the explanation, "a sort of creeper." The etymon is <i>karṇa</i> the ear and <i>sp'kēla</i> a boil, showing it to be a remedy for ear-ache.

TELUGU NAME.		Roman Character.	BOTANICAL NAME.	REMARKS.
Vernacular Character.				
బొంతుకళ్ళిక - (పుచ్చ-ర-మూలము.)		Bomma kachohika, (V. Pushkara milani.)	COSTUS SPECIOSUS, Sm.—R. i. 58.—W. Ic. 2014.	R. applies this name to <i>Zingiber roseum</i> p. 50; Cor. 126, but in <i>Viagapattam</i> , it is invariably given to <i>Costus</i> which abounds in the forests of that province. The Sansyns, <i>Pushkara milata</i> W. 545 and <i>Kāśamitra</i> W. 218 and Br. 224, are both applied to <i>Costus</i> .
P బొంతు పాపట - (కొమ్మి.)		Bomma pāpatā (V. Kammi.)	STYLOCORNE WEBERA, A. Rich.	
బొంతు సారి.		Bomma sārī,	POLYCARPEA CORYMBOSA, Lam.—W. & A. 1113-14; Ill. 110; Ic. 712.— <i>Celosia</i> cor. R. i. 681.	A doubtful name—R. calls it <i>Rajuma</i> a name we have never heard.
బొంతు దపపు చెట్టు - (బరపటూలు.)		Bommidapu chettu (V. Barapātālu.)	INDIGOFERA GLANDULOSA, Willd.	
Br. బొంతు మేడి - (బ్రహ్మమేడి.)		Bomma mēḍi, (V. Bramha mēḍi.)	FICUS OPPOSITIFOLIA, R.	Br. 1269.
S K బొంతు వెడరు.		Bongu veduru, (V. Penle veduru.)	BAMBUSA ARUNDINACEA, Willd.—R. ii. 191; Cor. 79.	<i>Bongu</i> means "hollow". Br. 969, has <i>Penle veduru</i> "female bamboo"—R's name <i>Mul-kāsa veduru</i> is unintelligible. The Sansyn. <i>Kichaka</i> , W. 223 is explained "a hollow bamboo."
[టి.] బొంతలరిటి చెట్టు - (అరిటి)		Bonta ariti chettu, (V. Ariti)	MUSA PARADISIACA, L.	A large var. used as a vegetable.—Br. 670. The word <i>bonta</i> , means "large," "coarse."
బొంతలచామలు (చామలు)		Bonta chāmalu, (V. Chāmalu.)	OPLISMENUS FRUMENTACEUS, Kth.	
B బొంతలజేముడు - (బొంతుజేముడు.)		Bonta chemudu, (V. Bomma jemuḍu)	EUPHORBIA ANTIQUORUM, L.	
P బొంతలవెంపలి - (వెంపలి.)		Bonta vempali, (V. Vempali.)	TEPHROSIA PURPUREA, Pers.—W. & A. 663.— <i>Galega pur.</i> and <i>lanceolata</i> , R. iii. 386.— <i>Rhede</i> , i. 56.	

R	బొప్పాయి- (మదనలననపెట్ట.) బొట్టకడివి. [బు.]	Boypayi, (V. Madana ānapa chettu.) Bōṭṭa kaḍimi, ...	CARICA PAPAYA, L.—R. iii. 824.—W. & A. 1089; III. 105-7—Rheede, i. 15.	
Br.	బొట్టకడపచెట్టు.	Boṭṭa kaḍapa chettu, ...	NAUCLEA PARVIFOLIA, R. i. 513; Cor. 52.—W. & A. 1207; III. 123.	The name is taken from the resemblance of the capsule to the stamp used for impressing the <i>botlu</i> or sectarian marks of the <i>Madhuchārya</i> Bramins.
	బొట్టపెండ- (తుత్తురుబెండ్లు)	Boṭṭa penḍa, (V. Tuturu beṇḍa.)	ABUTILON INDICUM, W. & A.—Sida Asiatica, R. iii. 170.	
	బొట్టహారుచెట్టు. [డ.]	Boṭṭu kīru chettu, (V. Pachela <i>botlu</i> .)	CORDIA POLYGAMA, R. i. 594.	Mr. Beddome found a sp. with this name in the valley of the Godavery which he considered new, and <i>C. polygama</i> was there called <i>Pachela botlu</i> . We also found the latter name applied in Guntoor to a low growing sp. of <i>Cordia</i> not in flower. These two names are probably interchangeable.
B	బొట్టుకు.	Botuku, ...	CORDIA, new sp.?	
	బ్రహ్మదండిచెట్టు. [డి.]	Bramhadandi (S) chettu, ...	ARGEMONE MEXICANA, L.—W. & A. 59; III. ii.—R. ii. 571.	W. 607 makes it <i>Psychotis djowan</i> —Br. 718 has <i>Arg. Mex.</i>
	బ్రహ్మమేడి- (బొడమామి)	Bramha mēḍi, (V. Bōḍa māmidi.)	FICUS OPPOSITIFOLIA, R. iii. 561; Cor. 124.—W. Ic. 638.	
Br.	బ్రహ్మరాకాళి. (బలురక్తా)	Bramha rākāṣi, ...	FOURCROYA CANTALA, Haw.	W. 609, says it is <i>Clerodendron Siphonanthus</i> . Among the Sans. syns <i>Amrita</i> , W. 61. is applied to <i>Emblica officinalis</i> , <i>Cocculus cor. difolia</i> and others—Heyne, 188. makes it <i>Hydrocotyle Asiatica</i> . <i>Mandika brahmi</i> , q. v., is <i>Cler. infundatum</i> and <i>Bhramarandri</i> is <i>Cler. serratum</i> .
SK	బ్రహ్మచెట్టు.	Bramha rākshasi, ...	CLERODENDRON sp.?	A doubtful name only heard at Vissanna pēta in Masulipatam.
	బుడదనరేడి- (కుంభి.)	Buḍadanarēḍi, (V. Kumbhi.)	CABEYA ARBOREA, R.	A generic name.
	బుడకు.	Buḍaka, ...	CUQUIS, L.	
	బుడమర- (చీపుడి.)	Buḍamara, (V. Chīpuḍi.)	GREWIA SALVIFOLIA, Heyne.—W. & A. 382.	A doubtful name of the Konda Dorulu.
	బూదరేడి.	Būdareṇi, ...	CAPPARIS DIVARICATA, Lam.—W. & A. 97; Ic. 880.	Abundant under this name about Conda-pilly.

చెంగలిగడ్డి-(చంగలిగడ్డి.)	Chengali gaddi (<i>V. Chengali gaddi.</i>)	...	PANICUM COMMUTATUM, <i>Nees.</i>	
చెన్నంగి.	Chennangi,	...	{ 1. LAGERSTREMIA MACROCERPA, <i>R. W. Ic.</i> 109; <i>III.</i> p. 205.	The exact plant to which this name properly belongs, is doubtful. I heard it on one occasion applied to <i>Desmodium</i> . Lt. Beddome heard it given to <i>Coldenia procumbens</i> Br 354 and 370 following Ainslie 5, assigns it to <i>Asarabacca</i> (<i>Asarum Europæum</i>) a drug belonging to the natural family <i>Aristolochiaceæ</i> , which is imported and sold in the bazars, but does not grow in India. The Telugu word signifies "shoe leather" which is applied to leaves having a wrinkled surface. One of the Sans. syns. in 1 st . II. <i>Charmára</i> agrees with this, as does <i>Serappadi</i>
చెప్పటట్టి.	Choppu tatla,	...	{ 2. LAGERSTREMIA PARVIFLORA, <i>R. ii.</i> 505; <i>Cor.</i> 66.— <i>W. Ic.</i> 69.	
		...	DESMONIUM FOLYCARPUM, <i>D. C.—W. and A.</i> 703; <i>Ic.</i> 406.— <i>Hedysarum purpureum</i> , <i>R. iii.</i> 358.	

The exact plant to which this name properly belongs, is doubtful. I heard it on one occasion applied to *Desmodium*. Lt. Beddome heard it given to *Coldenia procumbens*. Br 354 and 370 following Ainslie 5, assigns it to *Asarabacca* (*Asarum Europeanum*) a drug belonging to the natural family *Aristolochiaceae*, which is imported and sold in the bazars, but does not grow in India. The Telugu word signifies "shoe leather" which is applied to leaves having a wrinkled surface. One of the Sans. syns. in Pt. II. *Charmāra* agrees with this, as does *Serupadi*.

Br.	చేరికూర.	Chéri kúra,	<p>("shoe-foot") the Tamil name of <i>Coldenia</i> V. Rottler i. 389. The Telugu syn. <i>Hamsapādi</i> (goose-foot) conveys a somewhat similar idea. The Yánadis near Madras apply the name to <i>Elytharia crenata</i>, which has also corrugated leaves.</p> <p>Br. 361 says, "a kind of pottage used in <i>Ché-ri</i>" which he explains to be pepper-water soup or <i>mulgutanni</i>. The word pottage should perhaps be "potherb," such being the signification of <i>kúra</i>. The name <i>chéri</i> we have not heard—but <i>Chirri</i> is a kind of <i>Amaranthus</i> q. v.</p>
		Cheruku,	<p>The Sans syn. is <i>Pundarika</i> W. 540. "a var. of the sugar-cane."</p>
SK	చెరుకులొళ్లెదం.	Cherukul bhédam,	<p>R. iii. 718 says this var. is called <i>Katu-tumbi</i> W. 181; where the term <i>Katu-tiktaka</i> is also found.</p>
SK	చేరికొనపకొండ.	Chéri kónapa káya,	<p>The Sans syn. is <i>Pundarika</i> W. 540. "a var. of the sugar-cane."</p>
		Chéri bira (V. Chédu bira),	<p>R. iii. 718 says this var. is called <i>Katu-tumbi</i> W. 181; where the term <i>Katu-tiktaka</i> is also found.</p>
		Chéri potla (V. Chédu potla),	<p>The Sans syn. is <i>Pundarika</i> W. 540. "a var. of the sugar-cane."</p>
B	చేటిప్ప-బందార.	Chátippa (V. Bándára),	<p>R. iii. 718 says this var. is called <i>Katu-tumbi</i> W. 181; where the term <i>Katu-tiktaka</i> is also found.</p>
Br.	చేవచెట్టు-లేక-మాను.	Chéva chettu or mánau,	<p>The Sans syn. is <i>Pundarika</i> W. 540. "a var. of the sugar-cane."</p>
		Chevnkurti chettu,	<p>R. iii. 718 says this var. is called <i>Katu-tumbi</i> W. 181; where the term <i>Katu-tiktaka</i> is also found.</p>

TELUGU NAME.		Roman Character.	BOTANICAL NAME.	REMARKS.
Vernacular Character.				
చికిలింతగడ్డి.	Chikilinta gaddi,	...	PANICUM VERTICILLATUM L.—R. i. 301.	Br. 330, writes the word <i>Chigirinda gaddi</i> . The rapid growth of this beautiful grass has given rise to the common saying చికిలింతపన్నెం చికిలిండా నివార్య- am. lit. "grass like riches"—which to-day come and to-morrow make themselves wings and fly away!
చిక్కుడు చెట్టు.	Chikkudu chettu,	...	LABIAR CULTRATUS, DC.—W. and A. 773; Ic. 203 —Dolichos lignosus, R. iii. 307.	
చీకు చెట్టు.	Chiku chettu,	
చీకు వెలగ.	Chiku velaga,	...	DICLIPTERA PARVIBRACTEATA, Nees.	Br. 342. "A sort of tree."
చిలగడపంప (కెనుసుగడ్డి—మోహనం.)	Chilagada dumpa (V. Genus gaḍḍa and Mōhanam),	...	BATATAS EDULIS, Ch.—Convolvulus Batatas, R. i. 483.	So it was named by a Konda Dora at Simhachalam. Br. 342, calls it "a thorny <i>Pelaga</i> " (<i>Ferontia</i>) "like the <i>Chith mudi</i> , (<i>Sida acida</i>)!
చిలక పుడుగ.	Chilaka duduga,	...	GUATTERIA SUPEROSA, Dun.—W. and A. 37.—Uvaria sub. R. ii. 687; Cor. 34.	About Vizagapatam, a species of <i>Dioscorea</i> , <i>D fasciculata</i> , R. iii. 801, (which seems to be only a variety of <i>D. aculeata</i> ,) is cultivated under this name.
చిలక గడ్డి.	Chilaka gaddi,	Also applied to <i>Unona discolor</i> , Vahl.—B. ii. 669
చిలక తోట కూర.	Chilaka tōṭa kūra,	...	AMARANTHUS FASCIATUS, R. iii. 609.—W. Ic. 717.	A kind of grass at Simhachalam.
చిలక కూర.	Chilaka kūra,	
చిల్ల చెట్టు (ఇందువు చెట్టు).	Chilla chettu (V. Indupu chettu),	...	STREYCHNOS POTATORUM, L.—R. i. 576; Cor. 5	Perhaps the same as the last. It's Sans. syn. <i>Hilamechaka</i> does not occur in W.
చిల్లంకి.	Chillanki,	...	INGA UMBELLATA, Willd.—W. and A. 834.—MINOSA concordiana, R. ii. 556	

B చిమురుడు (చేకొరది.)	'Chimuruḍu (V. Chettonadi.)	... CADABA INDICA, Lam.	<p>This name is quoted on the authority of Rottler, Ains. 114. but it is admitted by Royle, Ill. 219, and appears to be well known to the natives as a medicinal root. Br. 257 applies Rottler's name to <i>Aerva glabra</i> which is undoubtedly <i>Tr. palmata</i>. Among Dr. Cleghorn's drawings, is a figure marked by Dr. Wight "<i>Tr. palmata</i>" which seems to answer to Rottler's plant. It certainly differs from <i>Tr. palmata</i> in the leaves being deeply incised and the ♀ pedicels being simple and one flowered — not racemose.</p>
P చిన అవగధ.	China avagḍa, TRICHOSANTHES INCISA, Rall.	
	China dēla gonḍi (V. Rivati dila gonḍi.)	TRAGIA CANNABINA, L.—R. iii. 575.	
B చిన కూరింగువ.	China karinguva, GARDENIA LUCIDA, R. i. 707.—W. & A. 1219; Ic. 575.	
R చిండుK (తెలుసు.) [డు.]	Chinduga (V. Telasu),	... ACACIA ODORATISSIMA, Willd.—W. and A. 850. —Mimosa odor. R. ii. 546; Cor. 120 —Rheede, vi. 5.	
చిన మండులమారి (బండ్ల బాగు.)	China mandula māri (V. Bankabadu.)	VITIS LINNÆI, Wall.—W. and A. 417.	
F చిన మోరల్లి (చారనెట్టు.)	China moralli (V. Chāra chellu),	BUCHANANIA LATIFOLIA, R. 6	<p>1 SIDA ALBA, L.—R. iii. 174.—W. & A. 218. 2 PAVONIA ZEYLANICA, Cav.—R. iii. 214 —W. and A. 170.</p>
R చిన ముత్తమ.	China muttama, ...		
P చిన ముత్తవపులగం (ముత్తవపులగం.)	China muttāva pulagum (V. Mut-tava pulagum),		
B చిన నవలి.	China navali, NIEBUHRIA LINEIFOLIA, R.—N. linearis, D. C. —W. and A. 78; Ic. 174.	
చిన వలన (వాడవలన.)	China valasa (V. Vādanalasa),	... WALSTURIA TERNATA, R. ii. 389.	
B చిన్న బొటుకు.	Chinna botuku, CORDIA ANGSTIFOLIA, R. i. 585.	

TELUGU NAME.		Roman Character.	BOTANICAL NAME.	REMARKS.
	Vernacular Character.			
B చిన్నజమ్మ - (నేలజమ్మ.)	...	Chinna jammi (V. Nela jammi,) ...	ACACIA CINERARIA, Willd.—W. & A. 864.	This plant which Wright seems to consider rare, is not uncommon in the neighbourhood of Madras. It was figured by Plukenet under the name of " <i>Acacia Madras padensis, spinosus, Intsia accidens, &c.</i> " tab. ii. f. i.
B చిన్నకళింగ.	...	Chinna kalinga, ...	DILLELIA PENTAGYNA, R. ii. 652; Cor. 20.	This seems a doubtful name and is given on Mr. Beddome's authority. <i>Inguira</i> and <i>Kdra ingura</i> are common names of species of <i>Gardenia</i> , the leaves of which resemble those of Dilliniac. Roxb's name, <i>Kowadan</i> is unrecognizable.
B చిననారె.	...	China nare, ...	EUGENIA SALICIFOLIA, R. W.—III. ii. p. 16; Ic. 539.	Mr. Beddome gives this name with a mark of doubt.
చిననిద్రకంటి.	...	Chinna nidra kanti, ...	DESMANTHUS TRIQUETRUS, Willd.—W. & A. 836; Ic. 756.—Mimosa trig. R. ii. 552.	Name of Konda Dorah.
చిన్నరంత.	...	Chinna rantu, ...	RHAPHIDOSTOMA GLABRA, Nees.	
P చిన్నిఅకు.	...	Chinni aku, ...	ACALYPHA BETULINA, Retz.—Spreng. sys. iii. 879.—A. spiciflorus, Lam. encycl. vi. & pl. 789. f. 1.	This plant tho' so common and so well known to the natives, is not found in Roxb. Wright. nor in Voigts. or Graham's Catalogues. Sprengel quotes it with the syn. of <i>A. fruticosa</i> Forsk. p. 161; and Lam. supp. iv. 681, under <i>A. fruticosa</i> refers to Vahl. symb. i. p. 77, to which Poiret adds a note that perhaps the plant of Retz and Willd. differs from Forsk. and requires further examination. In this he is no doubt correct, for the Indian plant is not fruticose—but herbaceous. Pluken. has two figures resembling our plant t. 99. f. 4 and Amalth. t. 449 f. 3.

This species has also been confounded with *Caturus spiciflorus* R. iii. 760; V. Privalis Index, voce *Acalypha*, where reference is made to Rumph. Amb. 4. 37

P	చిన్ని పెట్టు.	Chinni chettu.	...	CELASTRUS EMARGINATA, Willd.—R. i. 620.— W. & A. 502.	A local name.
	చిన్ని కలబంద.	Chinni kalabanda,	...	ALOE INDICA, Royle—A. perfoliata, R. ii. 167.	
B	చింత పెట్టు.	Chinta chettu,	...	TAMARINDUS INDICA, L.—R. iii. 215.—W. & A. 894.—Rheede, i. 23.	
	చివ్వ బోరగడ్డి.	Chippa bora gaddi,	...	PANICUM CORYMBOSUM, R. i. 292.	
SK	చివ్వ గడ్డి (భూ ప్పుణం.)	Chippa gaddi (V. Bhistranam),	...	ANDROPOGON SCHIGNANTHUS, L.—R. i. 274.— Rheede, xii. 72.	
	చీపుడి (బుడమర.)	Chippudi, (V. Budamara),	...	GREVIA SALVIFOLIA, Heyne.	
	చీపురుగడ్డి (చూచికగడ్డి.)	Chippuru gaddi (V. Pichika gaddi),	...	ARISTIDA SETACEA, Retz.—Chactaria set. Beauv.	The word means, broom or sweeping-grass, from the use to which it is applied—Roxb. applies a name to A. Hyetria which seems to be merely a misprint of this, the correct Telugu term.
	చీపురు తీగె (మానరి తీగె.)	Chippuru tige (V. Dhasari tige),	...	COCULUS VILLOSUS, D. C.	
	చిరగడం (చిలగడం.)	Chiragadam, (V. Chilagadam),	...	BATATAS EDULIS, Ch.	
	చిరంజీ.	Chiranjji,	RUBIA ?	This name is applied to a dying root in the bazars of the Northern Circars, which I suppose to be that of Rubia cordifolia. Roxb applies it to Griseba tomentosa.
	చిరతూబోడి (సులిక.)	Chiratala bōdi (V. Surli),	...	DALBERGIA (Brachypterum) SCANDENS, R. iii. 232; Cor. 192.—W. & A. 812; Ic. 275.— Rheede, vi. 22.	
	చిరి అల్లి.	Chiri alli,	...	VILLARSIA CRISTATA, Spreng.—Menyanthes cris. R. i. 459; Cor. 105.—Rheede, xi. 29.	The word means "small water-lily," all being the usual name for Nymphaea about Madras, where this name is used by the Yanadis.
	చిరి అన్నం (చిరి అన్నం.)	Chiri annam (V. Siri Annam),	...	BIEBELIA SCANDENS, Willd.—R. iii. 738; Cor. 173.—Rheede, ii. 16.	
	చిరి బెండా (తెల్ల అంటన.)	Chiri benda (V. Tella antina),	...	SIDA CORDIFOLIA, L.—R. iii. 177.—W. & A. 219.—Rheede, x. 54.	
	చిరి బిక్కి (చిట్టమట్ట.)	Chiri bikki (V. Chitta matta),	...	GARDENIA GUMMIFERA, L.	
	చిరి చాతరగి.	Chiri chataragi,	...	DENTELLA REPENS, Forst.—R. i. 532.—W. & A. 1246.	The word means the little Mallugo Spermale and being only given by the Konda Dorai of Simhachalam, is of very doubtful acceptance

TELUGU NAME		Roman Character.	BOTANICAL NAME.	REMARKS
Vernacular Character.				
చిరిదుడుక.	...	Chiri duduga,	ALPHONSEA LUTEA, H. F. & T.—Uvaria lutea, R. ii. 686; Cor. 36.	This name only occurs in S.K. It is not known what sp. is referred to.
SK. చిరిగలిజేరు.	...	Chiri galigéru,	TRIANTHEMA, L.	
చిరిగిలిగిచే.	...	Chiri giligicheha,	GROTOLARIA LABURNIFOLIA, L.—R. iii. 275.—W. & A. 602.—Rheede, ix. 27.	This name only occurs in S. K. with the Sans. syn. <i>Vidari</i> , W. 767, which is rendered as in col. 3.
SK. చిరిగుమ్మడు (నేలగుమ్మడు)	...	Chiri gummuḍu (V. Nēla gummuḍu),	BATATAS PANICULATA, Ch. p.	
చిరిజేగురు.	...	Chiri jéguru,	CLYTIA, L. sp.	The word <i>Chiri</i> "small" seems to refer to some smaller sp.
చిరికోతిగోరు (కోతిగోరు.)	...	Chiri kōti gōru (V. Kōti gōru),	PTEROLBIUM LACERANS, R. Br.—W. & A. 877; W. Ic. 196 —Cesalpinia lac. R. ii. 367.	
చిరిమల్లె.	...	Chiri malle,	JASMINUM ANGUSTIFOLIUM, Vahl —R. i. 96.—W. Ic. 698.—Rheede, vi. 53.	This name is applied to some of the small species as <i>E. parviflora</i> , R.— <i>E. prostrata</i> , Willd.— <i>E. chamasyce</i> , L.—&c.
చిరిమాను (శిరిమాను.)	...	Chiri mānu (V. Siri mānu),	CONOCARPUS LATIFOLIA, R. ii. 442.—W. & A. 976; Ic. 994.	
చిరినానుపాల.	...	Chiri nānupāla,	EUPHORBIA, L.	The Sans. syn. is <i>Mastira</i> , W. 647.— <i>Ereum</i> <i>Lens</i> and <i>E. hirsutum</i> , L. are both cultivated in N. India, or it may refer to <i>Lathyrus Aptata</i> , L.—R. iii. 322.
చిరిపల్లెరు (పల్లెరు.)	...	Chiri pallēru (V. Pallēru),	TRIBULUS LANUGINOSUS, L.	
SK. చిరిశనగలు.	...	Chiri śanagalu,	ERVUM, L. sp. ?	The Sans. syn. is <i>Vardhaka</i> , W. 739, where it is explained to be the plant commonly called <i>Bamanaitli</i> which in Sans. is <i>Erithmananthus</i> . Bat Rottler, ii. 134, gives for the Tamil <i>Sri tēku</i> "the medicinal shrub <i>Gantu bēranai</i> " q. v.—also Br. 1308.
SK. చిరితేకు.	...	Chiri tēka,	CLERODENDRON, L. sp.	V. remark on <i>Bārijaga chettu</i> and <i>Ehramara mēri</i> .

Br.	చిరివంగ.	Chiri vanga,	...	SOLANUM MELONGENA, L. small var.	This refers to a small, procumbent, very soft, villous species, on the hills near Vizagapatam; q. <i>L. mollissimum</i> , Wallp Br. 338.
	చిరితుమ్మి.	Chiri tummi,	...	LEUCAS, R. Br.	
	చిరివేరు.	Chiri vēru,	...	OLDENLANDIA UNDELLATA, L.—R. i. 421; Cor. 3.—W. & A. 1263.	
	చిరిఉలవ (శిరిఉలవ.)	Chiri ulava, (V. Siri ulava),	...	RHYNCHOSIA (Phyllomatia) RUFESCENS, DC.—W. & A. 735.	This name meaning "small gram" is probably applied to other small Phaseaceous plants. We found it given to the one indicated.
	చిరికూర. [టూ.]	Chiri kūra,	...	AMARANTHUS POLYGONOIDES, R. iii. 602.—W. Ic 512 and 719.	
K.S.	చిరుగునెట్టు (చిరుగుడునెట్టు)	Chirugu chettu (V. Virugudu chettu),	...	CARYOTA URENS, L.—R. iii. 625.	
	చిరుసాల.	Chiru pāla,	...	OXYSTELMA ESCULENTUM, R. Br.—W. contr. 54.—Asclepias rosea, R. ii. 40; Periploca esculenta, Cor. ii.	
Br.	చిటికూరనెట్టు.	Chitikāra chettu,	The Sans. syns. <i>Tittadagaha</i> W. 375 and <i>Svarnachitr</i> , 963, are explained "a medicinal kind of moon plant"—Br. 1208. Br. 331. says only "a certain tree."
H.	చిట్టింతుకూర.	Chitilinta kūra,	...	MARSILEA COROMANDELINA, N. L. Burm.—M. Br. 332, adopts this word from Heyne. It appears to be the same as <i>Chittimā</i> , q. v. a very common and well-known word not in Br. but applied to <i>Ricetia corchorifolia</i> , which is much used by the poorer classes as a vegetable.	
	చిటికేళ్ళరం (సుంకేళ్ళరం)	Chitikēśvarum (V. Sunkēśvarum),	...	POINCIANA ELATA, L.—R. ii. 355.—W. and A. 875.	A generic name.
	చిటికుటి (ముత్తవలగం)	Chiti mti (V. Mutlavolugam),	...	SIDA ACUTA, Burm.

Its Sans. name is *Sahakāra*, W. 913 "a fragrant kind of Mango,"—hence the name from *Elā*, "cardamom." The Sans. syns. *Aitēya*, W. 174. *Bāḥuka* 604, *Haridāhuka* 970, &c. all refer to a kind of vegetable perfume.—Br. 137, quoting the *Kēddha Śāstram* says "a plant called *Goula sarāha*," Br. 1157 "a kind of pot herb" *Q. Salsola* ? V. *Ila kūra*.

Br. 1157 says "a plant resembling mint eaten in famines" This applies to *Hydrocotyle rotundifolia* q. v. The Sans. syn. *Chachū* or *Chunchu*, W. 329, is rendered *Marsilea dentata*, R.

V. more correctly *Vellulli*.

A doubtful name obtained from a Yanādi.

The word signifies "Elephant gourd" and must refer to some large cucurbitaceous plant. The Sans. *Hastī-kōśātā* has the same meaning.

MUCUNA GIGANTEA, DC.—W. and A. 783—*Carpopogon* g.g. R. iii. 287—*Ricetle*. viii. 96

An imperfect specimen from Pālakonda, not identified, was so called.

P గరిటిక పు.	Gariti kamna, <i>VERNONIACINEREA</i> , Less.— <i>Serratula</i> cin. <i>R.</i> iii. 406— <i>W. contr.</i> 6.— <i>Rheede</i> , x. 64.	This is a doubtful name, only found in Piddington under <i>Coryza cin.</i>
గరుడపల్లె.	Garuda malle, <i>JASMINUM</i> , Sp.	Probably <i>J. angustifolium</i> —Found at Narsapatam, but not specifically noted at the time. The bitter root is used medicinally and perhaps, from its name may be considered to possess toxicological qualities.
గరుడముక్కు-(లేలుకొండ్లి చెట్టు.)	Garuda mukku (V. Telu kundi chettu),	... <i>MARTYNIA DIANDEA</i> , Gloz...	... Lit. "hawks'-beak" from the hooked seeds.
గరుగుచెట్టు.	Garugu chettu, <i>GARUGA PINNATA</i> , <i>R.</i> ii. 400; <i>Cor.</i> 208.— <i>W.</i> 4. 539; <i>Ic.</i> 1594-5.— <i>Rheede</i> iv. 33.	
గరగసగసాలచెట్టు.	Gasagasala chettu, <i>ALXICARPUS STYRACIFOLIUS</i> , DC.— <i>W. and A.</i> 720— <i>Hedysarum glumaceum</i> , <i>R.</i> iii. 347.	This name we have heard given to the plant indicated above, but the Sans. <i>Gasaka</i> is in fact "poppy-seed," <i>Br.</i> 204. The other syns. in Pt. II. are compounds signifying "minute seed" and refer to the same plant—Piddington's Index under <i>Hedysarum styr.</i> has " <i>Tel. Nalla mandu</i> ," which, also, signifies opium.
గాత.	Gāta, <i>DIOSPYROS SYLVATICA</i> , <i>R.</i> ii. 537; <i>Cor.</i> 47.	
గట్రింత(తివ్వపాలికె.)	Gatrinta (V. Tivva polike),	... <i>HUGONIA MYSTAX</i> , L.— <i>W. and A.</i> 261; <i>Ill.</i> i. 32.	In the Nagari Hills, it is called <i>Kāka bira</i> .
గవడాచెట్టు.	Gavada chettu, <i>Br.</i> 208, says, "the tree called <i>Kaparda</i> — <i>Kaparda</i> is a name of <i>Siva</i> , from his matted locks— <i>W.</i> 188, <i>Kapardiri</i> . Neither of these words occurs as a name of a tree except in <i>Br.</i> who quotes the <i>Avādhā Shāstram</i> .

Br. Xవాక్కివృక్షము.	గావీకాశి వ్రీకాము, S.	... CUCUMIS Sp.? W. 286, <i>C. pubescens</i> (<i>Maderaspatanus</i>) W. and A. 1057.—Br. 204. From <i>gáya</i> "a wound" áka "a leaf." The leaves are used as a styptic.
గాయత్రులకు.	గాయపా శకు,	{ 1 SIDA HUMILIS, Willd.—W. and A. 223. 2 SIDA RADICANS, Cav.—W and A. 220. CELASTRUS MONTANA, R.	
S K నేదంగి (పంపిణెట్టు.)	గేచిచాంగి (V. Danti chettu),	... PANDANUS ODORATISSIMUS, L. fl.	
S K నేదంగి మొగలి (నాజంగి.)	గేదాంగి మోగలి (V. Gijung),	... MUCUNA AEROPURPUREA, DC.—W. and A. 782.—Carpogon atr. R. iii. 287.	
నేదామంగి.	గేదే దిలాగంజి,	... <i>Elephas dilonand</i> or Elephant cowhage is given to this sp. by Roxb. iii. 284, which is still more applicable to <i>M. gijungense</i> .	
నేదామండ.	గేదే మండా, RHOEUXIA BUBULINA, nob.	This is a new sp. which we have named from its Telugu designation, <i>gēde</i> signifying a buffalo. It may be characterized as follows <i>Rhoc. glabra</i> , volubilis; radice bulbosa; foliis ovatis, vel late lanceolatis, acuminatis, cum glandulis duobus, erectis, ad basin; pedunculis singulis, axillaribus, longis, in capitum racemosum 8-10 flor. desinentibus; laciniiis calycinis subulatis; corolla basi ventricosa, limbi segmentis tubo multo brevioribus, apice coarctentibus; gynostegio stipitato; cor. stam. foliolis exterioribus latius, obtusis, pilosis, interioribus longius, ligulatis, in apicem supra coronam approximatis, glabris; pilosis, interioribus longius, ligulatis, in apicem supra coronam approximatis, glabris; In monte Simhachalam prope Vizagapatnam. Leaves 8-10 in. long, 5 broad; petioles 2; peduncles 7-8; pedicels 2; foliols 12 in. long. ... The words mean "buffalo-calf tree."
నేదా పెయ్యార నెట్టు—(బండ్లి కట్టితే న.)	గేదే పెయ్యార చిత్తు (V. Bandi kattu legi),	... COMBRETUM OVALIFOLIUM, R. ...	
నేనుసుగడ్డ (చింకడమంప.)	గేనుసుగడ్డా (V. Chilagađa dampa),	... BATATAS EDULIS, Ch.	
S K ఘంటారవము (గిలక నెట్టు)	గ్హాన్తారావము, S. (V. Gilaka chettu),	... CROTALARIA, L. ...	W. 308.—Br. 158. This, like the Telugu name is a generic term, signifying "rattle" from the sound of the seeds in the dry legume.
Br గిడ్డజొన్న (జొన్న.)	గిడ్డా జొన్న (V. Jonna),	... SOBGHUM VULGARE, Pers.—var. ...	Lit. short or low <i>Sorghum</i> .
గిడుగుడు (గురుగుడు.)	గిడుగుడు (V. Gurugudu),	... CASEARIA TOMENTOSA, R. ii. 491. ...	Our plant which we have noted as being variable in the number of athers, The leaves of our plant were also pierced with pellucid dots.

కక్కి-త-(నముద్ర పాల.)	Kakkita, (<i>V. Samudra pāla</i> .)
కక్కో-ల.	Kakkōla, S.	} "A kind of perfume obtained from a berry sold in the bazars—It is oval with a thick, green, sebaceous, fragrant integument, which dries and shrinks with age, and which, when mixed with a resin which is inflammable, becomes a thin greyish epidermis—Within this, is an aromatic kernel, abounding in oil, but these are poisonous while the <i>Kakkōla</i> is an esteemed drug, being described as pungent, bitter and carminative, in the <i>Rājya</i> "nighantu and <i>Bhāva-prakāśa</i> ."—Wilson As. Res. xiii, 411, 4to.
కక్కో-లక.	Kakkōlaka, S.	
కక్కో-ల.	Kakkōli, S. A drug so called from its color which is black like that of the crow; according to some, also a perfume. "The Hindus enumerate in their medical works a class of eight substances, which they denominate the <i>Ashla varya</i> or class of eight; they are all roots—and appear to come chiefly from Népāl and the countries skirting the Himalayan Mountains. They may be employed either singly or collectively and are described as cool, sweet, fattening, and aphrodisiac, promotive of digestion, sanative, lactiferous and tonic. They are farther said to possess great efficacy in urinary and phthisical affections and in removing the sequelæ of fevers. Their names are <i>Jivaka</i> , <i>Pianābhā</i> , <i>Mēda</i> , <i>Makā mēda</i> , <i>Kakkōli</i> , <i>Kashira kikkōli</i> , <i>Riddhi</i> , and <i>Priddhi</i> . The substance amongst these termed <i>Kakkōli</i> is generally connected with the one subsequent to it in the above list or <i>Kashira-kakkōli</i> and they are thus described in the <i>Bhāva-prakāśa</i> : 'These two drugs are procured from Morung, and the adjacent districts. <i>Kashira-kakkōli</i> resembles the root of the <i>Pitari</i> (<i>Asparagus racemosus</i>) and is of a white color, a fragrant smell and full of milky sap. The <i>Akkōli</i> is of similar form and character, but of a dark hue.—They are both sweet and cooling, they remove fever, and correct a vitiated state of the blood and bile; the root of the <i>Vidāri</i> (<i>Batalas paniculatus</i>) and the <i>Asvagaṇḍah</i> (<i>Physalis ferox</i>) are severally substitutes for the <i>Kakkōli</i> and <i>Kashira-kikkōli</i> ."—Wilson As. Res. xiii. 410. 4to.

In Bengali, it is called <i>Kalo megha</i> — <i>kála</i> and <i>kara</i> are syn. terms for "black." In Pt. II it is explained by four names, all of which belong to different plants.
	కరివేవ.	Kari vepa ...	BERGERIA KENIGII, L.—W. and A. 834; Ic. 13—R. ii. 875; Cor. 112.—Rheede, iv. 53	...
	కర్కంధపు - (కేగుచెట్టు.)	Karkandhavu, S. (<i>V. Ragu chetti</i> .)	ZIZYPHUS JUTUBA, Lam.	W. 194.—Br. 191.
S K.	కర్కారుకము.	Karkarukamu, S. ...	CUCURBITA, sp.	W. 194 from <i>Karka</i> "white," perhaps <i>De-nincasa cerifera</i> .

TELUGU NAME.		BOTANICAL NAME.		REMARKS.
Vernacular Character.	Roman Character.			
S K. కరతాళము (కాటిచెట్టు.)	Karatālamu, S. (V. Tāli chettu)	Br. 188, as distinguished from <i>Corypha</i>
S K. కకాటాళము (కాటిచెట్టు.)	Karkāṭa śringi (S.) tige	<i>Tadiera</i> . This rendering is given on the authority of OSh. and on inquiry for <i>Karkata śringi</i> in W. 194, at the word <i>Karkadabi</i> , says "a plant the fruit of which is compared to the claw or feelers of a crab," a description applying to the pepo of some cucurbitaceous plants. The Sans. syn <i>Śringi</i> , W. 855, signifies "a horn" and is applied to various roots, several of which come under the head of <i>Kakili</i> , q. v. The word <i>tige</i> implies a climbing plant.
S K. కరిక.	Karnika, S.	PREMNA SPINOSA, R. iii. 77.
S K. కార్పాసము.	Kārpāsamu, S. (V. Patti)	Gossypium HERBACEUM, L.
S K. కప్పురచెండు.	Karpūra bendā,	ABELMOSCHUS MOSCHATUS, Monch?—W. and A. 195; Ic. 399.—Hibiscus Abelm. R. iii. 202.—Rheede, ii. 38.
కప్పురచెండు.	Karpūra valli,	COLEUS AMBOINICUS, Lour.—C. aromaticus, Benh.—Plectranthus arom. R. iii. 52. and indeed of all its parts, a quality which in <i>Karuvuru</i> is confined to the exuberant roots alone. Dillwyn, Rev. Hort. Mal. following Bumphius, cites Rheede Tab. ix. 74 for this plant. But both the figure and description clearly refer to <i>Karuvuru</i> . It is more probable that Rheede fig. in Tab. 75 of his <i>Naravali</i> (Tam. ஸ்ரீமாவளி <i>Naravalli</i> , lit. "fragrant plant") is intended for our <i>Karpuravalli</i> . The very meagre description characterizes the leaves as "odoris grati" and adds "that it never flowers" which in fact it rarely does. Both figures are wretched, the leaves being represented as alternate! and the whole very incorrect. Bottl. ii. 170, erroneously explains <i>Karpuravalli</i> as being <i>Anisochilos carnosus</i> .
కర్రాంతి.	Karra antinta,	DICERMA PUICHELLUM, DC.—W. and A. 709; Ic. 418.—Hedysarum pul. R. iii. 361. So called from the legumes sticking like burs.— <i>Antinta</i> means any thing that catches or sticks to cloth.

కరవండలం - (మానుసెం డలం.)	కర్పాపెండలం (V. Manu penidalam.)	JANIPHA MANHOT, Kunth.	Cultivated in gardens.

P కౌసుకండ్లర.	Kousu kandira	STRYCHNOS BICERHOSA, <i>Lesch.</i> — <i>R. Fl. Ind. ed.</i> <i>Wall.</i> ii. 267.	This tho' a Tamil name used in Tanjore, where the species was first found, has nevertheless a Telugu derivation likewise, from <i>Kousu</i> "a disagreeable smell," which is characteristic of the plant. The name is also quoted as <i>Tel.</i> in <i>Pid. Ind.</i> I found the plant plentiful in the Nagari Hills under the name of <i>Tige mushta. q. v.</i>
R కౌయలు.	Koyalu	SALICOBENIA BRACHIATA, <i>R.</i> i. 84.— <i>W. Ic.</i> 738.	
B కొయిలమొకిరి (పుట్టిచీరెడు.)	Koyila mokiri (<i>V. Putta jille iu</i>)	WRIGHTIA TOMENTOSA, <i>Rom.</i> and <i>Sch.</i> — <i>W. Ic.</i> 443.— <i>Nerium tom.</i> <i>R.</i> ii. 6.— <i>Rheede.</i> ix. 3—4.	Only found in Mr. Beddome's list.
R కొయ్యపిప్పలి.	Koyya pippali	SALICORNIA INDICA, <i>Willd.</i> — <i>R.</i> i. 85.— <i>W. Ic.</i> 737.	
కొయ్యతోటహార.	Koyya tōṭa hāra	AMARANTHUS TRISTIS, <i>L.</i> — <i>R.</i> iii. 604.— <i>W. Ic.</i> 514.	
క్రానుగ (కానుగ.)	Krānuga (<i>V. Kānuga</i>)	PONGAMIA GLABRA, <i>Vent.</i>	... The Sans. form of the word.
కృష్ణలగరు (అగరు.)	Krishna agaru, S (<i>V. Agaru</i>)	AQUILLARIA AGALLOCHA, <i>R.</i>	... Black agallocha. There appear to be at least three kinds of agallocha or wood-aloes, the trees producing which are not fully identified—Roxb. followed by Royle, admits doubtfully the existence of two, — <i>Aq. Agallocha</i> , <i>R.</i> and <i>Aq. ovata</i> Cor., the Garo delicata of Lam.; and an inferior sort is said to be derived from <i>Excoecaria Agallocha</i> , which need not be taken into account. But Loureiro maintains that the best lign-aloe or <i>calambac</i> , which appears to be the <i>'Ad-i-kinari</i> of the Indian bazar is derived from a tree which he calls <i>Alcozylon Agallochum</i> , Roxb.; and Royle considers the Malayan <i>agila</i> (whence probably is derived the Hindi <i>agaru</i>), the aquila and eagle-wood of commerce and the <i>'Ad-i-Hindi</i> of the bazars, to be the produce of <i>Aquillaria Agallocha</i> which grows plentifully to the N. E. of Bengal and that it is probably identical with <i>A. ovata</i> .— <i>Royle</i> .
కృష్ణచందనం- (చందనం.)	Krishna chandanam, S. (<i>V. Chandanam</i>)	SANTALUM ALBUM, <i>L.</i>	... Black sandal, probably referring to the heart of the tree which is the most prized for its scent and is more or less dark-colored according to age. W. 219. under <i>Kāleya</i> and <i>Kāleṭakā</i> says "a yellow fragrant wood"—SK. says "sandal from the mountain <i>Jāpaka</i> " and quotes the Sans. <i>Kāḍḍinu sāraka</i> W. 218, where it is explained by <i>Tagara</i> (<i>Tabernemontana coronaria</i>),

కృష్ణ తామర.	...	CANNA INDICA L.—Zi. 1.— <i>Rheed.</i> xi. 43.	...
కృష్ణకులశి-(కులశి.)	...	OCTUM SANCTUM, L.	...
కృష్ణవేణి.	...	POUZOLZIA, sp.	...
కృష్ణవేణిదుంప.	...	THERIPHONIUM sp.
		stemless, with sagittate leaves; <i>spathe</i> slender, cylindrical, interrupted, colored, with free rudimentary processes above and below the stamina; <i>anthers</i> bilocular, opening with a pore on the apex; <i>ovaries</i> few, in a single series round the base; <i>ovules</i> 6-8, in a unilocular cell part erect rising on a short pedicel, from the base, part pendulous by a funicle from the top.	This name was found at Vissanná péta. This name was applied to an <i>Arum</i> obtained from a native garden at Vizagapatam—
Br. క్రోష్టము (హొంకుకచ్చిక)	...	COSTUS SPECIOSUS, Sm.	...

కుచ్చెల.	...	ANTHERICUM TUBEROSUM, R. ii. 149; <i>Cor.</i> 138—Phalangium tuberosum, <i>Kanth.</i> — <i>W. Ic.</i> 2086.	...
R. కుదురుజీచి-(పుత్రజీచి.)	...	PUTRAJIVA ROXBURGHII, Wall.	...
కుక్క-బుడ్డ. (మొదకప.)	...	GREWIA PILOS A, Lam.	...
			This name appears to be misspelt by Roxb. who is followed by Br. 348.— <i>Juvv</i> is applied to various kinds of <i>Ficus</i> — <i>Kuduru</i> , Br. 244, “a branch of a family” is almost syn. with <i>putra</i> a son. A doubtful name of the Konḍa, Doralu at Simhachalam.

TELUGU NAME.			BOTANICAL NAME.	REMARKS.
Vernacular Character.	Roman Character.			
B. కుక్క-పాల. (వెరిపాల.)	Kukka pāla (V. Verri pāla)	...	TYLOPHORA VOMITORIA, Voigt. ...	We found this name in use at Simlāchalam. It appears of doubtful acceptation— <i>Kukka</i> or dog is used to designate any inferior or wild species— <i>pāla</i> is a generic term for several <i>Asclepiads</i> —Br. 238, calls it <i>Cynanchum pauciflorum</i> , R. Br. (<i>Ascl. tunicata</i> R. ii. 35) also <i>Ajagandhi</i> (which W. 12, renders <i>Ocimum gratissimum</i> and SK. <i>Polanisia icosandra</i>)—Br. at 1184 also applies it erroneously to <i>Sauvestera Roxburghiana</i> .
Br. కుక్కపాలకూర.	Kukka pāla kūra	...	TRIANTHEMA CRYSTALLINA, Vahl.—R. ii. 444.	This is from Roxb. the word <i>pāla</i> should probably be <i>pāvile</i> and so Br. writes it (V. next word) which would then mean an inferior kind of vegetable either a <i>Portulaca</i> or with less propriety a <i>Trianthema</i> .

Vernacular Character.	Roman Character.			
S K లప్పు బ్రహ్మ చెట్టు.	Laghubrahmi chettu	...	FRIGONELLA CORNICULATA, L.—R. iii. 389.—W. Ic. 384.	Laghu W. 714 & <i>Bráhma</i> , 609 among other meanings, are both stated to signify the plant specified.
S K లక్ష్మణవంశి చెట్టు.	Lakshmana panji chettu	This name occurs in two places in Part II. as the Tel. syn. 1st. of <i>Mohini</i> , W. 676, a kind of Jasmine & 2nd of <i>Lakshmana</i> W. 713, a kind of drug.
లక్ష్మీ నారాయణ చెట్టు.	Lakshminarayana chettu	...	GRINUM ASIATICUM, Herb. a. toxicarium—R. ii, 134.	A substitute for squill.
S K లక్ష్మీ తులసి.	Lakshmi tulasi	...	OCYMUM. sp.	...
S K లకుచము.	Lakuchamu, S.	...	ARTOCARPUS LACOOCHA, R. iii. 534.—W. Ic. 681.	Br. 865—W. 713.
Br. లాకుజ్జకము—(వట్టివేరు.)	Lamajakamu, S. (<i>V. Vaitivaru</i>)	...	ANDROPOGON MURICATUS, Retz...	Br. 871—W. 719—Heyne, 130.
S K లాంXలి.	Lāngali. S.	Br. 869, explains it to be “the forest tree <i>Gloriosa superba</i> !” but W. 719 says, “a name of several plants,” also adding, <i>Gloriosa</i> & <i>Commelina</i> and the coconut tree.
లంజనవరము - (గొంఠెకు గొంతురు చెట్టు.)	Lanjavaramu (<i>V. Gontema gomaru chettu</i>)	...	IPOMŒA FILICAULIS, Blum.—Convolvulus medium, R. i. 474—C. filiformis Thunb.—C. prostratus, Heyne, 139.	According to Heyne the Sans. syn. is <i>Prasāra</i> but the explanation given in the Sans. Diet. to this word, is <i>Pedaria fetida</i> W. 579.
Br. లవలి.	Lavali	Br. 868, “a kind of creeper.”
S K లవంXం.	Lavangam	...	MYRSISTICA MOSCHATA, Thunb.—R. iii. 843; Br. 868. M. aromatica, R. Cor. 274.	...

S K	లవంగపు చెట్టు. Br. 868, under <i>Lavanga chakka</i> , inserts <i>Cassia lignea</i> (Laurus iners) on the authority of Ainslie.—but Ainslie gives this as the Tamil, not the Telugu term.
	లావు చెరుకు. <i>Lden</i> is "thick, robust," & indicates a thick kind of cane.
	లేడిగడ్డి. A kind of grass.
	లేతగడ్డి. A kind of grass.
S K	లేతగడ్డి. Br. 873.
S K	లింగాదొండ. This name was given to a wild Jasmine which I neglected to identify at Visannapeta.
	లింగామల్లె. In Vizagapatam.
	లింగామిరియం (V. Gurugu) A variety so called from its short, thick pedo Br. 873.
	లింగాపోట (V. Pofla) Br. 878.—W. <i>Lodhra</i> , 724.
	లొద్దుగా.
	లోలుగా (V. Nótika) PTEROSPERMUM HEYNEANUM, Wall.—W. and A. 254; Ic. 489—P. suberifolium, E. ii. 160.
R.	లోలుగ—(నోలిక.) ISOLEPIS ARTICULATA, Nees.—W. <i>cont.</i> 110.
	లోటిపిట్టలి. Scirpus art. E. i. 214.
P.	లోకాడ. BIGELOWIA LASIOCARPA, W. & A. 1344—Spermacoce stricta, E. i. 370.
S K	లుంగము—(దబ్బి చెట్టు.) CITRUS MEDICA, L. ...

It does not appear whence *Pid.* obtained this term.
 Br. 874. "The citron," so Br., but Heyne 185, calls it the clove orange and the citron he makes *Likucha*, but W. 790, Br. and SK. all make *Likucha* a syn. of *Lakucha*, q. v.

TELUGU NAME.		Roman Character.	BOTANICAL NAME.	REMARKS.
Vernacular Character.				
మా ఖేరి - (చినరణఖేరి.)	...	Mábhéri (<i>V. China ranabhéri</i>)	...	ANTISOMES MALABARICA, R. Br.— <i>W. Ic.</i> 865 It is also called <i>China rana bhéri</i> . Br. 762 writes <i>Madira</i> .
మా చివత్తి.	...	Máchi patri	...	— <i>Ajuga fruticosa</i> R. iii. 2. ARTIMISIA INDICA, <i>Willd</i> — <i>R. iii.</i> 419— <i>W. Ic.</i> 1112. This is the <i>Dona</i> of Roxb. Voigt, and Royle III., to which the latter also assigns the name of <i>Mareca</i> , (<i>V. Maruam</i>) which is properly <i>Origanum Majoranum</i> . <i>Dona</i> is from the Sans. <i>Damana</i> W. 389; another syn. is <i>Suraparna</i> W. 935, which is stated to be the same as the pungent, bitter drug, called <i>Máchi parna</i> , but the latter word is not in <i>W.</i>
మడచెట్టు.	...	Maḍa chettu	...	AVICENNIA TOMENTOSA, L.— <i>R. iii.</i> 88— <i>W. Ic.</i> 1481.
మదనఅనవచెట్టు (హాపాంబి.)	...	Madana ánapa chettu (<i>V. Eoppávi</i>)	...	CARICA PAPAYA, L. ... So called in Ganjam and Vizagapatam.
మదన - మొదిన.	...	1 Madana or Modina
మదనబుడతకాడ.	...	2 Madana budata káda	...	SPERMATOCOE HISPIDA, L.— <i>W. & A.</i> 1348— <i>R. i.</i> 373; <i>S. scabra</i> i. 371— <i>Rheede</i> , ix. 76
మదనగంధి.	...	3 Madana grandhi
మదనగంధి (హాన్ గంబి.)	...	Madana gunḍi (<i>V. Ponnaganḍi</i>)	...	ALTERNANTHERA SESSILIS, R. Br. Under the preceding word, Br. 741, has <i>Fácht tige</i> as a syn. but it doubtless refers properly to this plant, which is a creeper growing near water, on the margin of tanks, &c.
[శి.] మదనగంజలు - (అతన్. అని)	...	Madana giñjalu (<i>V. Alasé & Avitá</i>)	...	LINUM USITATISSIMUM, L. Linseed.

Br.	మదనము.	Madanam, S.	Datura sp?
	మదనశేకు - (అడవిపాలిశేకు.)	Madana séku (V. Adavipalishēku.)	CRYPTOLPIS RETICULATA,	Wall. Br. 741 "a narcotic plant" with syns. <i>Ummetta</i> , <i>Duttire</i> , &c.—W. 636 "a plant commonly called <i>Mayana</i> , thorn apple or <i>Datura</i> , &c."
H.	మదనము.	Madaphalamu	CITRUS, sp. This name was used by the Hill people of Vizianagram who make cordage and also a kind of cloth from the fibre.
	మద్దిచెట్టు (మూలుగచెట్టు.)	Maḍḍi chettu (V. Mūluga chettu)	MOEINDA, sp.—M. tinctoria? Heyne, 57. (V. <i>Madi phala</i>)
	మద్దిచెట్టు.	Maddi chettu	TERMINALIA GLABRA, W. & A. 974—Pentaptera gl. R. ii. 440. The roots of a tree with this name are sold in the bazar as a red dye, and were sent to the Exhibition of 1855, so named, from Rayahmundry, Masulipatam, Bellary, Kurnul, Bangalore and Salem. We have seen the plant growing in black cotton soil but not more than 3 or 4 feet in height, being constantly dug up for the roots and therefore neither in flower or seed.—Br. 738—Ains. 182.
R.	మద్దిరబ్బుచెట్టు.	Maḍḍi rubba chettu	ELEUSINE STRICTA, R. i. 343.	
SK	మాధవశీక.	Mādhavī tige	HIFTAGE MADABLOTA <i>Gertia</i> —W. & A. 370; Br. 760. <i>Ill.</i> i. 50— <i>Gertia</i> racemosa, R. ii. 368; <i>Cor.</i> 18.— <i>Rheede</i> vi. 59.	
SK	మధునిక.	Madhūnika, S.	Said to be a grass in S K. The word is not in Br. or W.
H.	మధునకం (బొప్పాయి.)	Madhurnakam (V. <i>Boppāyi</i>)	CARICA PAPAYA, L.	
	మద్దినిక - (గుజ్జకన్నెకోమలి.)	Madinika (V. <i>Gujja kanne kōmali</i>)	BOERHAAVIA STELLATA R, W. Ic. 875	
	మాదీఫలచెట్టు - (బీజపూరము.)	Māḍīphala chettu (V. <i>Bijapurumu</i>)	CITRUS MEDICA, L.—R. iii. 392—W. & A. Br. 760 <i>Mātulungah.</i> 344 var. 7.	
	మాదీశి.	Māḍī tige	ARGYREIA CYMOSA <i>Set.</i> — <i>Lettsonia</i> cym. R. i. 492.—W. Ic. 839.	It is remarkable that although perhaps, the commonest of all the <i>Argyriae</i> in the Carnatic, it is stated in the Flora Ind. to be a native of the Malabar mountains and to have been raised from seeds from the Wynād. This long led me to doubt whether this <i>Madi</i> was the same plant, for Koxb. must have been familiar with it at Sāmukōfa, and it was not until I had sent a specimen to Dr. Wight and got it named by him, that I adopted Roxb.'s designation. It is also to be observed that <i>Arg. aggregata</i> which Roxb. locates on the Coromandel coast, is confined to Mysore and mountainous tracts. It is possible he may have accidentally changed the habitat of the two sp.

నీలగుమ్మడు - (భూచక్ర)	Nēla gummuḍu (V. Bhūchakra gaḍḍa)		
నీలగురుగుడు (నీలగులిమిడి.)	Nēla guruguḍu (V. Nēla gulimidi)	SLEVOGTIA VERTICILLATA, D. Don.	Br. 250.
నీలజమ్మి - (చినజమ్మి.)	Nēla jammi (V. Chinna jammi)	ACACIA CINERARIA, Willd.	
నీలజీడి - (కొండలముదం.)	Nēla jīḍi (V. Konḍa amudam)	BALIOSPERMUM POLYANDRUM R. W.	
నీలకలిగొట్టు - (కలిగొట్టు)	Nēla kaligoṭṭu (V. Kaligoṭṭu)	BIGNONIA sp.	A small species; Q. Zschynanthus parasitica, Wall?
నీలకొబ్బరి (పురుషరత్నం)	Nēla kobbari (V. Puruṣa ratnam)	IONIDIUM SUFFRUTICOSUM, Ging.—W. and A. 116.—W. Ic. 308—Viola sub. E. i. 649—Rheedea ix. 60.	
నీలమూర - (నీలచెప్పడు.)	Nēla mura (V. Nēla cheppuḍu)	ELYTHRARIA CRENATA, Vahl.—E. i. 119.	Pid. Ind. writes Nēla mīra.
నీలములక. (నీలవా)	Nēla mulaka } (V. Nēla vākṣaṁ) {	SOLANUM JACQUINI, Willd.—a. diffusum, E. i. 508.	Br. 514 and 1248—It is used as a vegetable. The fruit of this var. is larger and white.
నీలముల్లాకు. (కుడు.)	Nēla mullāku		
నీలనీరేడు.	Nēla nēṭṭu	PREMNA HERBACEA, E. iii. 80....	The syn. given is <i>Bhit jambu</i> W. 628, who explains it differently. Roxb. also has <i>Bhit jambu</i> , as has Voigt. There is some confusion between <i>Premna herb</i> and <i>Arctostea humilis</i> —V. Kāḍi nēṭṭu.
నీలానుక.	Nēlaṅga	LAGENARIA VULGARIS, Ser. var.	Perhaps P. Nirvri.
నీలవకడపు చెట్టు.	Nēla pagadapu cheṭṭu	PHYLANTHUS, sp.	

TELUGU NAME.		Roman Character.	BOTANICAL NAME.	REMARKS.
Vernacular Character.				
నెలపాల-(చిరిపాల.)	Néla pála, (<i>V. Chitri pála</i>)	...	OXYSTELMA ESCULENTUM, <i>R. Br.</i>	... This is applied to a variety common about Bejawada, running along the surface, which we never found in flower.
P. నెలపిప్పలి.	Néla pippali.	...	ZAPANTA NODIFLORA, <i>Lam.—Rheede x. 47.</i>	
SK. నెలపొక.	Néla póka	...	CALAMUS ERECTUS, <i>R. iii. 77b</i> The words mean, "ground areca" and the botanical name is assigned conjecturally, the seeds of <i>Cal. erectus</i> being used for betel-nut.
Br. నెలపొన్న.	Néla ponna	...	CASSIA <i>sp.</i> Br. 682, says <i>C. semna</i> —Rheede ii. 52, has <i>Ponna tagara</i> for <i>C. Sophora</i>
నెలసంపెంక-(వేరసంపెంక.)	Néla sampenga (<i>V. Vēru sampenga</i>)	...	POLYANTHES TUBEROSA, <i>L.—R. ii. 168.</i>	... Br. 1005.
నెలతాడి.	Néla tādī	CURCULIGO ORCHIOIDES, <i>Gertn.—R. ii. 144</i> ; <i>Cor. 13—Rheede xii. 59.</i>	Br. 514.
నెలతంగేడు.	Néla tangēdu	...	CASSIA ORTUSA, <i>R. ii. 344.—W. and A. 801—W. Ic. 757.</i>	
నెలతప్పిడ-(నెలచెప్పడు)	Néla tappiḍa (<i>V. Néla cheppuḍu</i>)	...	ELYTRARIA CRENATA, <i>Vahl.</i>	
నెలవామడు-(నెలములక.)	Néla vākuḍu (<i>V. Néla mulaka</i>)	...	SOLANUM JACQUINI, <i>Willd. β</i> Fruit smaller, yellow.
నెలవామింట-(కుక్క-వామింట.)	Néla vāmiṇṭa (<i>V. Kukka vāmiṇṭa</i>)	...	POLANISIA ICOSANDRA, <i>W. & A.</i>	... It may also refer to the smaller sp. of <i>Cleome</i> and would be especially applicable to <i>C. Burmanni</i> .
నెలవాచిలి.	Néla vāvili	...	GENDARUSSA VULGARIS. <i>Nees.—W. Ic. 408.—Justicia Gend. R. 1. 128—Rheede ix. 42.</i>	<i>Gandharasa</i> Sans. literally "essence of smell or perfume." The word does not appear to signify any particular flower. It occurs in Ramph. Amboina. iv. tab 28. whence it has been adopted by Linné, Willd. and others. Roxb. applied the word to the incense obtained from <i>Boswellia serrata</i> the <i>B. thurifera</i> of Colebr.

నిండుటాయి.	Nimma tányi	CEROPEGIA BULBOSA, R. ii. 27; Cor. 7—W. Ic. 846.	The Yánuks and Chenehús eat the roots to which they gave this name.
Br. నిండుకులసి.	Nimma tulasi	OCIMUM GRATISSIMUM, L.?	Br. 493 says, a sp. of <i>Tulasi</i> with the scent of a lemon.
S K నిప్పులవ పై కానుక.	Nippula vauve kránuga	PONGAMIA sp.	<i>P. uliginosa</i> , or <i>Butea superba</i> ? The word means "fiery-red color," and indicates a species with flaming bright flowers. Q. <i>Wagalea spicata</i> ?
నీరల్లి-(నక్కె-న.)	Niralli (V. Nakkena)	CANTHIUM DIDYMEUM, Gertr.	
నీరాకు.	Nirákuga	PASPALUM SCROBICULATUM, L.—β Kora—P. Kora. R. i. 279.	
నిరిజ-(నీర.)	Nirija (V. Bira)	ELGONDRON ROXBURGHII W. and A. 492—W. III. 71—Nerija dichotoma R. i. 646.	The name <i>Bira</i> is very doubtful, it was only found at Pakamanar. The root of this tree is much prized as a cure for snake-poison, apparently not without some reason.—Br. 502—O'Sh. 271.
P. నీరుఅన్ని వేండ్ల పాకు.	Niru agui véndra páku,	JUSSIEUA VILLOSA, Lam.—W. and A. 1041—J. exaltata, R. ii. 401— <i>Rheede</i> ii. 50.	The propriety of this rendering which is taken from Pld. Ind. is doubtful. The word means "the burning leaf growing in water" and is properly <i>Ammania vesiculosa</i> V. Pl. l. p. 12.
P. నీరుబచ్చలి.	Niru bachelali,	JUSSIEUA REPENS, L.—R. ii. 401—W. and A. 1040.	
Br. నీరుబొడ్డి-(బొడ్డి.)	Niru boddī, (V. Boddī)	RIVEA HYPOCRATERIFORMIS, Ch.	
నీరుబుడికి(అంతరతామర)	Niru budiki, (V. Andara támarā)	PISTIA STRATIOTIS, L.	
నీరుచిక్కుడు.	Niru chikkuḍu,	LABLAB sp.	
నీరుచిర్రి.	Niru chirri,	CENTROSTACHYS AQUATICA, Wall.—W. Ic. 1780. <i>Achryanthes</i> ag. R. i. 673.	The Syn. in SK. is <i>Mákhah</i> which according to W. 688 is <i>Amaranthus oleraceus</i> .
SK నీరుగన్నేరు.	Niru gannéru,	1. POLYGONUM RIVULARE, Kon.—R. ii. 290. 2. POLYGONUM GLABRUM, Willd.—R. ii. 287—W. Ic. 1799. 3. HYDROCKERA TRIFLORA, W. and A. 463.— <i>Impatiens natans</i> , R. i. 652.	The name is applied to any narrow leaved sp. The syn. <i>Nichelak</i> , according to W. 466, is <i>Barringtonia acutangula</i> .
R. నీరుగలిగిచ్చ.	Niru gili gich cha	CEOTALARIA QUINQUEFOLIA, L.—R. iii. 279—W. and A. 606— <i>Rheede</i> , ix. 28.	
నీరుగొబ్బి.	Niru gobbi	ASTERACANTHA LONGIFOLIA, Nees.—W. Ic. 449— <i>Ruellia</i> lon. R. iii. 50— <i>Rheede</i> ii. 45.	

TELUGU NAME.			BOTANICAL NAME.	REMARKS.
Vernacular Character.	Roman Character.			
Br. నీరుగోరంట - (నల్ల పెద్దగోరంట) [రంట]	Nīru gōraṇṭa	(V. Nalla pedda gōraṇṭa)	BARLERIA CRISTATA, L.—β rosea.	Br. 502. "A light tinted <i>Gōraṇṭa</i> of a pale red color."
SK నీరుఇప్ప.	Nīru ippa	The name implies a <i>Sapotaceous</i> tree frequenting water. Ips syn. in SK <i>Gowraśāka</i> is according to W. 303, a sp. of <i>Bassia</i> .
Br. నీరుబీలుగ(జీలుగ.)	Nīru jīluga	(V. Jīluga)	ESCHYNOMENE ASPERA, L.	A doubtful name from Roxb.
Br. నీరుకావ.	Nīru kācha	...	PONTEREDA VAGINALIS, L.—R. ii. 121; Cor. 110— <i>Rheede</i> xi. 44.	Br. 502.
Br. నీరుల్లి.	Nīruḷli	...	ALLIUM CEPA, L.—R. ii. 142.	Br. 502 "A plant called <i>Kārkoḍi</i> " which is not in W.
Br. నీరుపాడి.	Nīrupāḍi	
Br. నీరుపావల.	Nīru pāvila,	...	BERGIA VERTICILLATA, Willd.—R. ii. 456; B. aquatica, Cor. 142— <i>Rheede</i> ix. 78.	
SK నీరుపిప్పలి.	Nīru pīppali,	...	PONGATIUM INDICUM, Lam.—Sphenoclea Zeylanica. R. i. 507.	
SK నీరుప్రబ్బ - చెత్తము.	Nīru prabba,	(V. Bettamu)	CALAMUS ROTANG, L.	The genus delights in marshy plains but <i>C. Rotang</i> especially.
Br. నీరుతామర.	Nīru tāmara,	...	PONTEREDA HASTATA, L.—R. ii. 121; Cor. 111	This name is hardly admissible. It rests on Roxb.'s authority alone.
Br. నీరుతోటకూర.	Nīru tōṭa kūra,	...	AMARANTHUS, sp.	The common cultivated species requires plentiful watering, but there is no sp. that we know which grows in water.
SK. నీరుతుమికి - (నీటితుమికి - ఏరుతుమికి.)	Nīru tumiki,	(V. Nīṭi tumiki and ērutumiki)	DROSERAS, sp.	Ebenaceous tree frequenting water? Its syn. in SK is <i>Dygha padiraka</i> . W. 406. "a thorny plant—a kind of <i>Bassia</i> growing in marshy places."
Br. నీరుతలవపు.	Nīru talavapu	...	DESMODIUM NATANS, Willd.—W. and A. 835. —Mimosa nat. R. ii. 552; Cor. 119.	<i>Nir lanti</i> means "touching the water" referring to the habit floating character of this plant. The name is only found in Roxb.
Br. నీరువంగ.	Nīru vanga,	...	SOLANUM MELONGENA, L.—S. longum, R. i. 507.— <i>Rheede</i> x. 74.	This well known variety is under culture at all seasons and requires much water, hence the name.
